

## 5v5+2 END ZONE GAME

**Organization:** Two teams with conversion players score in the end zones. Conversion players are always on offense and play with whichever team has the ball.

**Procedures:** A point is awarded every time a team passes into the end zone and a teammate runs onto it and touches it before the defense. If your team scores you keep possession and go the other direction.

**Option:** You must pass into the end zone and then back to a teammate outside the zone in order to score a point.
